
In the American Journal of Psychotherapy, two noted psychiatrists and an M.D. from India wrote an article Multiple Personality in India: Comparison with Hysterical Possession State. The tenor of the article was that in India, the psychiatrists have to deal with demonic possession rather than MPD which is found in the west. They made comparisons of demonic possession in India to the MPD of the west, which are similar but not the same. Later, other articles and letters were written about this article. One of the criticisms was that these Indian psychiatrists were trying to compare their demonic possession to the west’s MPD when it was obvious that their cases of demonic possession did not meet all the criteria of MPD. In the experience of the co-authors of this book, demonic possession is not MPD (DID) but it does have many of the same characteristics. If we understand programming from the Programmers point of view, they believe in both MPD and Demonic possession. (1) Amen. This is the last in a full session of demonic cases. I present these to reveal how the demons work! The things they say, and the secrets they keep which eventually they will reveal. In the name of the Jesus and in the name of Mary, I command you to speak the entire truth, everything you have to say. I command you to say everything the bishop of Wuerzburg has to know, in the name of Jesus and in the name of Mary.. Within this transcript which is derived from the actual tape of her session, I will add comments to point out important truths!Â  review reading this to give you discernment and protection. This kind of work is very dangerous! Don’t take it lightly, because the demons don’t!! ...This is actually so... this is actually not so bad, but when it’s so cold as it was during the week, I had to shake something fierce [in the sense of trying to stay warm]. And at night, I’m not allowed to cover up. Nah, that’s something, eh? When Julia came out of these trances, she strongly professed no recollection of these remarks or of having said anything at all. An experienced psychiatrist book conclude that we were probably, therefore, dealing with a dissociated personality or, more precisely, even Dissociative Identity Disorder (elaborated on later). What quickly made this understandable hypothesis implausible, however, were several other peculiar though obviously related phenomena, but a sampling of which is covered here. Judas, the betrayer of Jesus, and in Dante’s Inferno, He dwells in the 9th circle of Hell which represents Treachery. Judas was said to be tempted by these six demons in the desert and was persuaded to betray Jesus. What will crack in the house? In the name of Jesus and in the name of Mary, I command you, unclean spirit, to speak the truth, in the name of the Father and of the Son and of the Holy Ghost. Amen. In the name of Jesus and the Most Blessed Virgin Mary, tell us the truth! … the whole truth. We call upon our Guardian Angels and ask the Queen of the Angels to compel you to speak the truth. How many of there are you? This work given is in full acknowledgement of GOD and directed by Holy Spirit. Any and all use of the facts of the dark side are not an avenue meant to give any credit to them. In fact, all work is directly attributed to GODs Plan and to give HIM all the glory. Amen This was performed to maintain their eternal youth and vitality. This seems very familiar to customer of the same within the certain elite bloodlines which want immortality. Also, this reminds me of the Hollywood stars and their ever-vigilant rituals to remain young. Amid widespread confusion and skepticism about the subject, the chief goal of this article is to document a contemporary and clear-cut case of demonic possession. Even those who doubt such a phenomenon exists may find the following example rather persuasive. For clergy, or indeed anyone involved in the spiritual or psychological care of others, it is equally critical, however, to recognize the many and infinitely more common “counterfeits” (i.e., false assignations) of demonic influence or attack as well. Papers, PDF Files, and Presentations. The Eucharist especially revealed the clergy’s power. October 25, 2014 | Categories: Beasts of Burden,
